CYBER SECURITY TRAINING – PREPARING FOR CYBER ESSENTIALS

CYBER ▲ SCALE

Cyber Essentials is a Government-backed, industry-supported scheme to help organisations protect themselves against common online threats by implementing key foundational technical security measures. It is backed by industry including the Federation of Small Businesses, the CBI and a number of insurance organisations which are offering incentives for businesses.

UK Government requires all suppliers bidding for contracts involving the handling of certain sensitive and personal information to be certified against the Cyber Essentials scheme.

The course focuses on preparing your team for the Cyber Essentials Accreditation process and will ensure they understand:

- The Background and Benefits of Cyber Essentials
- Key elements of Cyber Essentials
- How Cyber Essentials is assessed
- How to assess your readiness
- How to build an implementation plan

This course is aimed at enabling businesses who wish to pursue a Cyber Essentials accreditation. Using internal staff resources to prepare their business for the certification process, the course is best suited to IT managers and staff who are tasked with helping prepare their business for a Cyber Essentials accreditation.

An understanding of key technical concepts such as Networking, Operating Systems and Systems Administration is required.

The course runs from 9:30am through to 4:30pm. Refreshments are available from 9am, and can either take place at CyberScales' dedicated training facility on the outskirts of Norwich, or be delivered remotely. As this process is personal to your business the course is also available as a closed session focusing specifically on your business needs.

CyberScale have extensive experience in designing and delivering business focused Cyber and Information Security training and workshops for many types and sizes of organisation. But, don't just take our word for it, here's what some of the previous attendees had to say:

"A very enjoyable course, aimed at the right level" – Water Management Alliance

"I picked up many things I didn't know, which was very good" – Water Management Alliance

This course can be delivered to meet the needs of your business.

In an open shared group

As a closed session

At CyberScale's offices

On site at your premises

Remotely
